

Prevention Through
Innovation.

PRODUCT FEATURES

- 3" wide transfer edges enables safe and easy transfers on and off the surface reducing falls and entrapment.
- Suitable for clients with medium to high risk for pressure injuries.
- Quilted, zippered cover allows for one-step removal
- Visual and audible alarm enhances clients' safety and security.

DOMUS **EDGE** True Low Air Loss System

The Domus *EDGE* Alternating Pressure Therapy offers Low Air Loss for an effective microclimate control.

SIMPLIFIED PUMP TECHNOLOGY

Modes include Alternating Pressure Therapy and Constant Low Pressure (static). Domus *EDGE* also features max inflate and seat inflation for the Fowler position. Client weight references are incorporated into the control panel so caregivers can easily find the correct level of comfort and firmness needed for optimum comfort and healing.

ALTERNATING PRESSURE THERAPY

Domus *EDGE* offers Alternating Pressure Therapy with a 10-minute operating cycle that allows the bladders to inflate/deflate to offload body pressure.

SAFETY FEATURES

To protect your clients, the Domus *EDGE* has a number of added safety features. An accessible and highly visible CPR release valve allows caregivers to quickly deflate the surface during emergencies. It can also stay inflated during transport. Plus there is an auto-lock on the settings after five (5) minutes.

Size: 80" Length x 36" Wide x 7" High

Weight Limit: 450 lbs.
